Dubai, United Arab Emirates | +971555861846 | maryamjega@outlook.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Analytical and results-driven Data Analytics and Business Analysis professional with an MSc in Data Science and experience across finance, operations, logistics, and business strategy. Skilled in Python, SQL, Power BI, Excel, machine learning, and data visualization, with a proven ability to transform complex datasets into actionable business insights. Experienced in dashboard development, forecasting, predictive analytics, process automation, and stakeholder communication within fast-paced environments. Adept at applying analytical, statistical, and AI-driven approaches to solve business problems, optimize performance, and support data-driven decision-making.

PROFESSIONAL EXPERIENCE

Sales and Customer Analytics Intern | FedEx | Dubai

Apr 2025 - Present

- Analyzed customer, sales, and operational data to identify trends, opportunities, and performance gaps.
- Developed dashboards and KPI reports to support business reviews and data-driven decision-making.
- Conducted account-level analysis and market research to support lead generation and sales initiatives.
- Collaborated with cross-functional teams to improve customer experience and operational outcomes.
- Maintained data accuracy and reporting consistency across multiple systems and processes.
- Contributed to initiatives that supported the team in achieving 136% of revenue targets.

Financial Planning and Analysis Intern | Kitopi | Dubai

Sep 2024 - Dec 2024

- Developed Power BI dashboards to monitor financial and operational performance across multiple business units.
- Conducted forecasting, variance analysis, and budget-to-actual comparisons to support planning activities.
- Analyzed financial and operational data to identify cost-saving and efficiency improvement opportunities.
- Automated reporting workflows and consolidated data from multiple sources to improve reporting accuracy.
- Collaborated with finance and operations teams to support strategic and operational decision-making.
- Assisted with KPI development, performance tracking, and management reporting processes.

Consultant (Partnerships, Outreach, and Regional Development) | Middlesex University | Dubai

Aug 2024 - Oct 2024

- Managed analytical reporting and performance tracking across multiple regional initiatives and stakeholder groups
- Built structured dashboards and tracking systems to monitor engagement, operational metrics, and outreach performance
- Conducted data analysis to support growth strategies and improve campaign effectiveness
- Presented findings and recommendations to stakeholders to support data-driven decision-making
- Coordinated across teams to ensure alignment and successful execution of initiatives
- Managed multiple concurrent projects in collaborative and fast-paced environments

Business Analysis Intern | Dagwood Advertisement & Design | Dubai

Summer 2023

- Conducted market research and competitor analysis to support business growth initiatives.
- Built analytical reports and performance-tracking tools to improve operational visibility.
- Analyzed customer, campaign, and operational data to identify trends and opportunities.
- Supported project execution through stakeholder coordination and business reporting.
- Improved reporting processes and analytical workflows to increase efficiency.
- Presented insights and recommendations to support planning and business development activities.

Data Intern | Nigerian National Petroleum Corporation (NNPC) | Abuja

Summer 2022

- Analyzed operational datasets to support business insights and performance improvement initiatives
- Built structured reporting systems to monitor operational metrics and analytical outputs
- Cleaned, validated, and consolidated large datasets from multiple sources to ensure data integrity and reliability
- Identified trends and inefficiencies through data analysis to support operational optimization
- Collaborated with teams to support reporting, analytics, and operational decision-making
- Assisted with KPI development, performance tracking, and management reporting processes

EDUCATION

Master of Science (MSc) in Data Science | Middlesex University | 2024 - 2025

- Thesis:** Advanced Supply Chain Demand Forecasting using data-driven predictive analysis

Bachelor of Science (BSc) in Business Information Systems | Middlesex University | 2023 - 2024

Advanced Diploma in Software Engineering | Aptech | 2022 - 2023

KEY SKILLS

- Data Analysis & Programming:** Python, R SQL, SAS, Statistical Analysis, Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), Forecasting
- Artificial Intelligence & Machine Learning:** Predictive Analytics, Model Evaluation, Feature Engineering, AI Applications, LLMs, Prompt Engineering
- Business Intelligence & Visualization:** Power BI, Excel (Advanced), Dashboard Development, KPI Tracking, Data Visualization, Reporting Automation
- Cloud & Databases:** Amazon Web Services(AWS), Google Cloud Platform (GCP), BigQuery, Relational Databases
- Business Analysis & Strategy:** Requirements Analysis, Performance Analysis, Process Improvement, Stakeholder Management, Strategic Planning

CERTIFICATIONS

- Microsoft** Power BI Data Analyst
- Google** Data Analytics
- DataCamp** Associate Data Analyst in SQL, Excel Fundamentals, Financial Modelling in Excel
- IIBA** Business Analysis

PROJECTS & AWARDS

- McKinsey Forward Program:** Developed structured problem-solving, stakeholder management, and business communication skills.
- L'Oréal Brandstorm:** Consumer insights, innovation, and commercial strategy.
- Customer Churn Analysis (Excel):** Built retention model, visualized churn rates, and quantified revenue risk.
- Job Market Analysis (Power BI):** Built interactive dashboards to analyze employment trends, hiring patterns, and skills demand.
- UAE Golden Visa:** Awarded under exemplary university student category.
